## THE T RIBUNE

FATHERS AND SONS: A Novel; By THEODORE E. HOOK. "Sayings and Doings, " "Young Married," &c. 12 vols.) Lea & Blanchard, New-York. G. S. Francis & Co. 23rd Broadway.

This is a capital novel—we say it heartily, for we have read every word of it in the London edition. Hook lived the prince of humorists and punsters, and wrote the most strikingly easy and natural delineations of the circle in which he lived we have ever known. "Fathers and Sons" is a little less mirth-exciting than the "Gurleys," but more wholesome in its tenor, and an admirable chiasmus as well as delineation of some of the vices of fashionable life.

**THE PROPERTY OF THE EARTH.**—A Discourse preached before the Millennial Advent Association in the City of New-York, Jan. 26, 1842, with Notes on the Millennial Controversy, and Strictures on Prof. McLean's "Manual of Sacred Interpretation." By JOHN LUCAS. (Price 25c.) John Motte, 11th Canada.

Mr. Little contends for an essentially literal interpretation of those Prophecies which speak of the Second Coming and Kingdom of Christ. Those who agree with him on this point will be apt to like his book.

**LECTURES TO YOUNG MEN.** By RUFUS W. CLARK, A. M., Pastor of the Second Presbyterian Church, Washington-st. (vol. pp. 162-1800.) W. M. MORRISON, 143 Nassau-st.

The Lectures in this volume are six in number, and treat of the Opportunities, Duties and Responsibilities of Young Men, in a spirit of earnest truthfulness, and with an eloquent directness of purpose and manner. They have been warmly and deservedly approved.

**PORTRAITS OF THE PRESIDENTS.** BY C. A. WAKEFIELD.—This is decidedly the best thing of the kind we have seen. A full length of Washington occupies the centre, around which half lengths of the nine succeeding Presidents are tastefully arranged. The likenesses of John Q. Adams, Gen. Jackson and John Tyler are especially good, as we know by personal observation; and, on the whole, we have never seen so good a print sold for a dollar. It may be had at Colman's, 203 Broadway, or Post's, 28 Bowery.

**J. W. A. COLMAN,** 203 Broadway, has re-

moved up stairs his magnificent collections of Books, superb Engravings and Works of Art generally. There is nothing like it on the Continent; and we recommend to strangers of taste and munificence the luxury of spending an hour in viewing his choice Pictures and unequalled Prints. Our citizens all know the place and its delights already.

**J. D. Mallory** of this city proposes to publish the Congressional and other **SPEECHES OF HENRY CLAY**, with a Complete Outline of his Life, in two large octavos of 600 pages each, with a Portrait. Price \$5. It will sell, of course.

**INTERNATIONAL COPY-RIGHT.**—The Charleston Mercury, in re-publishing the Address to the People of the United States, by several eminent authors of England, disposes of the argument on international copy-right, in a brief but emphatic style. It says:

The only questions in this case are—

1st. Is it book property? But that is granted by every body.

2d. Is it fair and just that an author who has with labor created this property of a book, should be allowed to sell it to the citizens of another nation, who wish the benefit of his labor?

If the "Detroit Times" has just been started by Warren Isham, No. politics, but very urgent in favor of emigration to Michigan. Can the Editor inform us whether immigrants will be required to share in the crime and disgrace of swindling the State's creditors?

A PHILANTHROPIST.—Edward C. Delavan, of Albany, New-York, has devoted sixteen years of labor, and a fortune of \$60,000, in promoting the glorious cause of Temperance. What a rich and pleasing reward must the present onward progress of that great moral reform be to him, for his philanthropic labors! May its progress equal his most sanguine hopes. [Lowell Advertiser.]

**To Travellers.**—Gentlemen visiting this City are respectfully invited to stop at the **GRAHAM HOUSE**, 23 Barclay-street, where a quiet home, pleasant rooms, clear beds, wholesome food, and an atmosphere imposed by alcohol or tobacco, await the stranger. Gentlemen new to New York, without a family, will find a really temperate and purely vegetable diet, at a moderate price. Letters of credit, without severe iteration, are requested to give it time. The house is very convenient to the business part of the City and to all the Steamboat Landings. Terms moderate. Gentlemen visiting the City with a party of their Families will find such a home vastly more comfortable than a Hotel. Shower-Baths free.

**N. B.—For a good Fit and cheap Cloth.** N. B. Ing. call at R. APPLETON'S Cash Tailoring Establishment, 204 Grand-street, corner of Attorney, 142m.

**ENTANGLED ACCOUNTS.—Thom's Jones, Accountant, 123 Broadway, opposite Johnson's, undertakes to arrange and adjust accounts of every description. To those who have not been able to devise a simple and easy method of conducting this department, the advertiser, with the assistance of several books, will furnish them with his system, in suggesting such forms of account books as best adapted to any particular routine of business. In complicated partnership affairs or confused and neglected accounts he will be called to effect in all cases an equitable and reasonable adjustment.**

The Patient will be paid by the author as above, "Jones, Practice and Practice of Bookkeeping," which is already the text book in the leading Academic institutions of this country, and the only American work on the subject that has been printed in England. Price \$1.50.

**WARREN'S Patent Horse Power and Threshing Machine.**—These Machines, wherever they have been introduced throughout the United States, are justly esteemed as superior to any other manufactured, so far as quality or durability of their cheapness, and also for their great economy of power.

The Patient will be paid by the author as above, "Jones, Practice and Practice of Bookkeeping," which is already the text book in the leading Academic institutions of this country, and the only American work on the subject that has been printed in England. Price \$1.50.

## Henry Clay at Home.

Mr. Clay was recently invited by his friends and neighbors to unite with them in a Public Dinner. To this invitation, he returned the following answer:

ASHLAND, May 6th, 1842.

Gentlemen—I have had the pleasure to receive your note, transmitting the resolutions adopted at a meeting of the citizens of Lexington and Fayette county, convened for the purpose of making arrangements connected with my return to the Senate of the United States, from the State of Kentucky, in conformity with which, you have done me the honor to invite me to a public entertainment, directed by one of the resolutions to be tendered to me.

I sincerely appreciate the testimonials of commendation, addressed to me, in a gratifying manner. Such proofs, emanating from the persons of my fellow-citizens of the United States, however remote from my residence, would be entitled to my particular and respectful acknowledgments; but proceeding, as these do, from my neighbors in the system of states, both in private and public, where we are associated, a period of forty years, have remained firm and steadfast in their attachment and friendship to me, fill me with the most agreeable and touching emotions, and have made a deep and indelible impression on my heart. They will, with the same frankness, in my opinion, serve, in due season, to sustain me during the remainder of my days.

I thank you that my quitting the public councils of our country, at this time, is not disapproved. I deeply regret the strong and energetic opposition to my departure, which I have not contributed to produce, nor would have sought more earnestly to restore the common prosperity than I should, if it had been in my power. But seeing no prospect of accomplishing any good corresponding with my wishes, I thought that, might, without censure, now excuse my long delayed departure.

A room and bedroom for each individual, and admission to the public halls and saloons, and to all places of amusement.

The Voice of Dutches.

The following are the Resolutions adopted by the Whigs of Dutches County in Convention at Washington Hollow, on Thursday, the 19th inst.

**Resolved.** That, in the opinion of this Convention, the question of granting and securing permanent protection to American industry, whether engaged in Agricultural, Manufacturing, Mechanical or Mercantile pursuits, is one of the most important now dividing the two great parties of the country, and upon which the results of future elections must be determined.

**Resolved.** That, our political experience and observation, for twelve years past, have convinced us that we can only hope to succeed in the maintenance of our freedom and independence, and to secure the welfare of our country, by uniting all the forces of the nation in a common cause.

**Resolved.** That, the adequate Protection of American Agriculture is the first duty of our Government; as Agriculture forms the basis of all nations, that to accomplish this object, the primary labor should be exerted, and the most effective measures adopted, for securing to our agriculture a remunerative value, and for giving adequate protection to American Industry can be any means obtained, and that the only way to secure the right policy is to go to the people, and to appeal to their sense of justice.
